DIGITAL ARTIST & CRAFTSWOMAN

HOBBIES

GAMING

TV SHOWS

MOVIES

MUSIC

I am a passionate, imaginative and conscientious digital artist and craftswoman. I've always been a creative person and my ambition is to be employed in a creative industry. I create digital artwork often with popular industry standard software alongside using top grade hardware.

My passions include sketching on my graphics tablets and creating a variety of different 2D artwork ranging from pixel art to seeing line art to completion. I also have knitting, sewing and crochet skills alongside other non-digital artwork experience and I have plans to sell my creations online.
